EDUCATION

Aditya College of Engineering Surampalem, Andhra Pradesh

2021 – 2025

B.Tech – Information Technology | GPA: 8.52

Courses: Operating Systems, Data Structures, OOPs Concepts, Machine Learning

Smt.B.Seetha Polytechnic College, Bhimavaram

2019 – 2022

Diploma – Computer Science & Engineering | Percentage: 81.54%

TECHNICAL SKILLS

Programming Languages: Java, C, Python, HTML, CSS, Node.js

Cloud & DevOps: AWS, CI/CD Pipelines, GitHub Integration

Platforms & Technologies: ServiceNow (ITSM, CSA, CAD), Salesforce, AWS Cloud, UI/UX

Developer Tools: VS Code, GitHub, AWS CodePipeline, CodeBuild

WORK EXPERIENCE

Technical Hub | ServiceNow Intern

Sep 2024 – Apr 2025

- Worked on ServiceNow platform tasks including incident management, workflow automation, and catalog item configuration.
- Assisted in developing and testing ServiceNow applications and integrations as part of real-world enterprise IT service management projects.
- Gained hands-on exposure to ServiceNow scripting (GlideScript, Business Rules, Client Scripts) and flow designer automation.

AWS DevOps | Intern

Aug 2023 – Mar 2024

- Engaged in a structured short-term internship focused on AWS and DevOps practices enhancing cloud deployment skills.
- Worked with core AWS services like EC2, S3, IAM, CloudWatch, and RDS for setting up and monitoring cloud environments.
- Applied cloud computing concepts and DevOps methodologies in real-world scenarios to enhance deployment and automation skills.

PROJECTS

Live Web Streaming Using AWS

- Developed a live web streaming platform using AWS Elemental MediaLive and CloudFront for real-time, scalable video distribution.
- Implemented secure, low-latency streaming with global content delivery, enabling seamless multi-region audience reach.
- Configured IAM roles and security groups to ensure controlled access and compliance with cloud security best practices.

Tools: AWS Elemental MediaLive, CloudFront, S3, IAM, EC2

Smart Blind Stick Using IoT

- Built an Arduino-powered assistive device using Ultrasonic and IR sensors with NAND gate logic to detect obstacles for visually impaired users.
- Integrated multi-modal feedback (vibration, sound, LED light) to alert users of nearby obstacles, improving navigation safety and independence.

Tools: Arduino UNO, Ultrasonic Sensor (HC-SR04), IR Sensor, NAND Gates, Buzzer, LED

Hotel Management System Using ServiceNow

- Developed a ServiceNow-based application to manage hotel operations including room booking, check-in/check-out, and service requests.
- Automated workflows for real-time room availability, request handling, and guest services to improve efficiency and customer satisfaction.

Tools: ServiceNow Platform, Workflow Designer, Service Catalog, REST APIs

CERTIFICATIONS

- AWS Academy Certified Cloud Practitioner – Amazon Web Services, November 2023
- Oracle Certified Foundation Associate – Oracle University, August 2023
- ServiceNow Certified System Administrator (CSA) – ServiceNow, September 2024
- ServiceNow Certified Application Developer (CAD) – ServiceNow, September 2024
- Salesforce Developer – SmartInternz, July 2023

EXTRACURRICULAR ACTIVITIES

- Red Cross – Active member participating in community service projects promoting social welfare and development (Jan 2023 – Present).
